G-MB - 75/63  
15 February 1963  
Copy No. 3

MEMORANDUM FOR: Chief, Military Division, OCI

ATTENTION:

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Submarines at Petropavlovsk

REFERENCE: Requirement No. OCI/R-15/62 (Project No. C 1290-62)

1. In response to Requirement No. OCI/R-15/62 (C 1290-62), photography of Petropavlovsk and surrounding coastal area was scanned in an effort to identify submarines.

2. A study of photography of the Petropavlovsk harbor area from [redacted] fails to reveal any vessels that can be identified as submarines. It should be pointed out, however, that several unidentified objects can be seen in the water/ice at Rybachey on the southwest side of the harbor area. These objects are located where submarines have been observed on earlier photography, but it cannot be determined whether these objects are vessels or piers on the present photography. In addition to searching the harbor area additional areas Rechevenskaya (53 15N - 159 45E), Morzhovaya (53 16N - 159 57E), Velguchenskaya (52 38N - 158 25E) and Zherovaya (52 36N - 158 28E) were also studied on photography from [redacted] respectively, with negative results.

3. The photo analysis on this project was performed by [redacted] CIA/PID/GMB (NPIC), who may be contacted on ext. [redacted] for any additional information.
